

**Chatham Fire Department urges all residents to change batteries in their smoke detectors and carbon monoxide detectors**

During the past week many detector batteries are running low and transmitting false alarms. By changing batteries now you are assuring the detector will operate properly when needed.

For additional guidance contact Chatham Fire Inspector at 908-367-3473 or [swilliams@chathamborough.org](mailto:swilliams@chathamborough.org)
