

## ReCommunity Launches Virtual MRF Tour

Have you ever wondered what happens to your recyclables after they are picked up from the curb? We have your answer.

ReCommunity has created a state-of-the-art virtual MRF tour for kids and adults of all ages. In honor of America Recycles Day, our virtual plant manager spends 10 exciting minutes giving a tour of the ReCommunity Materials Recovery Facility. There is even a version with spanish subtitles.

[Click the link below and see first-hand how your recycling makes a difference!](#)

Also, to learn even more about recycling, check out our entire Education Station for animated videos, downloadable posters, and teacher lesson plans.

Happy America Recycles Day!

ReCommunity

### Guided Tour

### Self - Guided Tour

**1 Scale**

Trucks begin the process by driving onto the scale and getting weighed. Inbound trucks are weighed, then emptied, and are weighed again on the way out – the difference is the amount of recyclables delivered. The empty outbound trucks are weighed, loaded, and then weighed again – the difference is the amount of recyclables going to market.
