### **HOW TO HANDLE A BROKEN CFL (EPA GUIDANCE):**

**Do not touch or vacuum broken CFLs., which contain mercury vapor.**

**Have pets and people leave the room. Air for 5-10 minutes. Shut off heat/air conditioning.**

**Thoroughly collect broken shards, powder with cardboard, sticky tape, damp paper towels.**

**Place in clear, sealed container. Keep container outdoors until it can be disposed of properly.**

**If possible, continue to air room, and leave heat and air conditioning off, for several hours.**
