

## **Announcement No. 46**

Chatham Borough Health Officer reported that nine (9) residents have tested positive (February 12 - February 18) for the COVID-19 virus for a total of 157 positive cases year-to-date and a total of 402 positive cases from the start of the pandemic. This week's cases include residents whose ages range from 16 to 73 years of age. 0 residents 11 years of age or under, 3 residents are 12 to 20 years of age and 6 residents are 21 years or above in age.

As we continue with the winter weather, where indoor congregating is likely to continue, and as a result of the already increasing number of Covid-19 cases around the state, we are encouraging parents, teens, children and business owners to continue their responsible approach to slowing the spread of Covid-19 by:

- Following social distance guidelines (indoors and outdoors)
- Wearing masks whenever you are around other people. (Including children over two years of age)
- Washing hands often
- Disinfecting frequently touched surfaces
- Staying home if you don't feel well
- Keeping the elderly and those with preexisting conditions distanced

**Please continue to do your part for the sake of your family, friends, and your community!**

We will continue to share information on this and other cases when appropriate. For more information on COVID-19, please visit [www.chathamborough.org](http://www.chathamborough.org), [CDC](https://www.cdc.gov) or [covid19.nj.gov](https://www.covid19.nj.gov).

Released: February 18, 2021
