

Announcement No. 47

Chatham Borough Health Officer reported that fifteen (15) residents have tested positive (February 19 - February 28) for the COVID-19 virus for a total of 157* positive cases year-to-date and a total of 415* positive cases from the start of the pandemic. This week's cases include residents whose ages range from 14 to 82 years of age. 0 residents 11 years of age or under, 5 residents are 12 to 20 years of age and 10 residents are 21 years or above in age.

As we continue with the winter weather, where indoor congregating is likely to continue, and as a result of the already increasing number of Covid-19 cases around the state, we are encouraging parents, teens, children and business owners to continue their responsible approach to slowing the spread of Covid-19 by:

- Following social distance guidelines (indoors and outdoors)
- Wearing masks whenever you are around other people. (Including children over two years of age)
- Washing hands often
- Disinfecting frequently touched surfaces
- Staying home if you don't feel well
- Keeping the elderly and those with preexisting conditions distanced

Please continue to do your part for the sake of your family, friends, and your community!

We will continue to share information on this and other cases when appropriate. For more information on COVID-19, please visit www.chathamborough.org, [CDC](https://www.cdc.gov) or [covid19.nj.gov](https://www.covid19.nj.gov).

Released: March 2, 2021
