

Announcement No. 45

Chatham Borough Health Officer reported that nineteen (19) residents have tested positive (February 5 - February 11) for the COVID-19 virus for a total of 148 positive cases year-to-date and a total of 393 positive cases from the start of the pandemic. This week's cases include residents whose ages range from 4 to 70 years of age. 2 residents 11 years of age or under, 4 residents are 12 to 20 years of age and 10 residents are 21 years or above in age and 3 resident's age is not accounted for.

This week there was one (1) additional death for a total of ten (10) Covid-19 related deaths since the start of the pandemic.

Chatham Borough Mayor Thaddeus Kobylarz and the Borough Council extend their deepest, heartfelt sympathy and condolences to the family during this very sad time. May God rest this soul as we stand in solidarity again and prayer in mourning this painful loss.

As we continue with the winter weather, where indoor congregating is likely to continue, and as a result of the already increasing number of Covid-19 cases around the state, we are encouraging parents, teens, children and business owners to continue their responsible approach to slowing the spread of Covid-19 by:

- Following social distance guidelines (indoors and outdoors)
- Wearing masks whenever you are around other people. (Including children over two years of age)
- Washing hands often
- Disinfecting frequently touched surfaces
- Staying home if you don't feel well
- Keeping the elderly and those with preexisting conditions distanced

Please continue to do your part for the sake of your family, friends, and your community!

We will continue to share information on this and other cases when appropriate.

For more information on COVID-19, please visit www.chathamborough.org, [CDC](https://www.cdc.gov) or covid19.nj.gov.

Released: February 12, 2021

Chatham Borough
