

Announcement No. 76

Chatham Borough Health Officer reported that fifteen (15) residents have tested positive (November 19-30) for the COVID-19 virus for a total of 441* positive cases year-to-date and a total of 686* positive cases from the start of the pandemic. This periods cases include residents whose ages range from 2 years of age to seventy-five years of age. 0 residents whose age is not available, 3 residents 11 years of age or under, 6 residents are 12 to 20 years of age and 6 residents are 21 years or above in age.

We are encouraging parents, teens, children, and business owners to continue their responsible approach to slowing the spread of Covid-19 by:

- Wearing masks whenever you feel the need to
- Washing/sanitizing hands often
- Disinfecting frequently touched surfaces
- Staying home if you do not feel well

Please continue to do your part for the sake of your family, friends, and your community!

We will continue to share information on this and other cases when appropriate.
